

ROTARY SURFACE CLEANERS

Hydro Twisters® are industrial flat-surface cleaners that connect to a pressure washer and use a spray bar rotating at a high speed within 1" of the ground to clean concrete more consistently than an operator with a wand, with less fatigue, 10-20 times faster, and use less water. Hydro Twister surface cleaners can be used with cold water or up to 250° hot water, on some models, for extra stubborn grease or grime, eliminating the need for soap pretreatment in most applications.

The Hydro Twister® Advantage...

- Low Profile Deck: Will fit under benches & machinery
- Low Maintenance: Stainless permanently lubricated & sealed bearings
- Stainless Rotary Arms: for durability and rust resistance
- Less Fatigue: Handle is held in place at ideal working angle
- Hose is protected inside stainless steel handle (except ANT1N)
- Rustproof and heavy duty for daily use
- **NEW** Rear splash guard to keep operator's feet dry (except ANT1N)

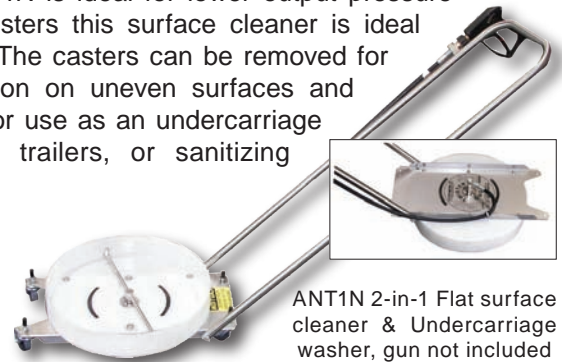

- driveways, drive-thrus
- patios, garages
- concrete sidewalks
- school yards
- factory & warehouse
- restroom floors
- food processing floors
- service stations
- concrete parking lots
- pool decks
- sport courts
- roofs & decks
- loading docks
- tile flooring
- stadiums
- marina docks
- moss & mildew removal

**New for
2013**

The **ANT21** HYDRO TWISTER is small but powerful. With a smaller 20" deck, it is ideal to clean under and around workbenches, bakery racks, and other tight spaces. All stainless, rustproof, construction will keep your surface cleaner working and looking great for years. Model# ANT21

The unique **ANT1N** HYDRO TWISTER has a seamless 20" composite deck, is lightweight and will not become brittle with age. The ANT1N is ideal for lower output pressure washers. With casters this surface cleaner is ideal for tile and decks. The casters can be removed for floater style operation on uneven surfaces and roofs. Flip it over for use as an undercarriage washer for trucks, trailers, or sanitizing stadium benches. Model# ANT1N

ANT1N 2-in-1 Flat surface cleaner & Undercarriage washer, gun not included

The **ANT28 Professional** HYDRO TWISTER has a large cleaning path. The all stainless construction outlasts all others in even the harshest of washing conditions. The four casters swivel for free movement while cleaning. The heavy duty skirt protects the spray arm from damage by hitting large rocks or curbs and has a rear splash guard to keep operator dry. Model# ANT28

**New design
for 2013**

The **Contractor Series** HYDRO TWISTER® is the proven choice for professional surface cleaning...now with four tools for your cleaning needs. The **ANT4C** combines a rotary surface cleaner, spot / gum remover, hydro broom, and an edger to create an all-in-one deluxe surface cleaner. The dual trigger guns activate either the rotary spray arm or one of the other three devices. By combining four processes into one unit, you will save time and fatigue when cleaning large expanses of concrete, parking lots or other flat surfaces. The secret that makes the Contractor Hydro Twister so effective is the ideal water spray angles and nozzle heights that optimize cleaning power.

Model# ANT4C

An onboard edging tool cleans close to planters, columns, and walls or use the water broom to rinse a large area

New for 2013

The under-deck spot remover uses a "six-shooter" nozzle to blast away gum or paint.

Caster pivot lock allows the operator to choose to lock casters for use in straight lines or unlock for cleaning side-to-side.

Choose the Hydro Twister with the deck and nozzle size that accommodates your power washer					
	ANT1N	ANT21	ANT28	ANT4C	ANTV5

Handle/frame construction	Stainless		Stainless, adjustable position handle, trigger gun (dual guns on ANT4C)		
Other features	Able to flip over or use as float style		4) caster wheels with o-ring seals		

WATER RECOVERY SURFACE CLEANERS

New for 2013

The **Twister Vac** is a unique rotary surface cleaner with wash water recovery capability. Imagine how efficient you will clean without the hassle of having to do a final rinse or containing wastewater runoff. Using a Twister Vac with your existing hot water mobile wash skid, you will be able to clean flat surfaces up to 20,000 sq. ft. per hour, plus recover your wash water all in one simple step when you connect to a Hydro Vacuum® recovery system.

Available in a stainless 30" deck (#ANTV5) and composite 12" deck (#ANT12). Requires minimum 104cfm/91"lift vacuum source, 2" vacuum hose, and a pressure washer. Suitable for use on greasy factory floors, concrete parking lots and drive-thru areas, gas stations and garages.

Connect to the PVAC for easy recovery and filtration for reuse or discharge

For additional Mobile Wastewater Solutions, ask your dealer for information on the Hydro Vacuum® product line.
